

Hazguard Chem3

Non Woven Polypropylene Spunbond Coveralls Type 3/4/5

FEATURES AND BENEFITS

- Non Woven Polypropylene Spunbond
- High performance external barrier film
- Stitched seams, taped over for ultimate protection
- Provides chemical protections against Pressurised Liquid Chemicals (Type 3) and Liquid Aerosols (Type 4)
- Barrier to Airborne Particulate Matters (Type 5)
- Double Layer Storm Flaps help ensure liquid tight seal in front critical area
- Antistatically treated and comply to the electrostatic protection required by EN1149-5:2008 on inner face only
- Chinstrap for extra protection and better fit
- Elasticised wrists and ankles keep particulates out
- Thumb loop to prevent sleeve movement during overhead work

* The user should evaluate the suitability of this product for their application

Hazguard Chem 3

PRODUCT TYPE

Limited Use Coverall

MATERIAL

Non Woven Polypropylene Spunbond
High Performance External Barrier Film

SIZES

Large, XL, XXL

COLOURS

Yellow

STANDARDS & CERTIFICATIONS

SGS Certificate GB11/83065

CE Certified to protection level:

Type 3 - Protection against pressurised liquid chemicals (EN 14605)

Type 4 - Barrier to spray of liquids (EN 14605:2005 and EN 468)

Type 5 - Barrier to airborne particulate materials and dust (EN ISO 13982-1:2004)

EN 1149-1:1995 - Anti-static

EN 1073-2:2002 - For protection against radioactive contamination

EN 14126:2003 - For protection against biological hazards and infective agents

The Pro-Val Hazguard Chem 3 Coveralls are durable and waterproof providing numerous chemical protections against pressurised liquid chemicals, saturation spray of liquids and dry particle hold out as well as protection against bodily fluids and biological contaminants.

The Hazguard Chem 3 are designed for protection against hazardous substances and contamination of both product and personnel. They are typically used, dependent upon the severity of the toxicity and the conditions, for protection against airborne particles and limited splash and spray.

The performance requirements applicable to this chemical protective clothing garment are covered by the standards listed where there is a need for resistance to penetration by airborne solid particles including radioactive materials. In addition it is intended for use in cases of potential exposure to light spray liquid aerosols or low pressure volume splashes where a complete permeation barrier is not required.

STORAGE

This garment should be stored in accordance with normal storage practice and disposed of without harm to the environment. Restrictions on the disposal depend solely on the contamination during use.

SHELF LIFE

Not specified

STANDARD PACKAGING

1 Coverall per Individual Polybag

TOTAL 12 Coveralls per Carton (Sold individually)

WASHING INSTRUCTIONS

Do not launder or iron
