Mobile Expanding Safety Barrier

Portable and lightweight crowd control barrier

Our mobile expanding safety barrier is ideal for a variety of indoor and outdoor temporary barricading applications. This versatile design can be positioned to create a highly visible straight, curved or circular barricade.

The unit weighs 16kg, sits a metre high and extends fully to 4 metres. It comes complete with caster wheels and locking straps to ensure it is easy to relocate.

Product Features:

- Lightweight and portable crowd control barrier.
- Barrier is 910mm high and expands out to 4 metres.
- Overall weight 18.4kg.
- Quick and easy to set up and folds away for storage.
- Castor wheels and locking straps for easy handling and relocating.
- Durable polyethylene construction in highly visible solid colour Yellow.
