

## Kerb Ramps - Hi-Vis

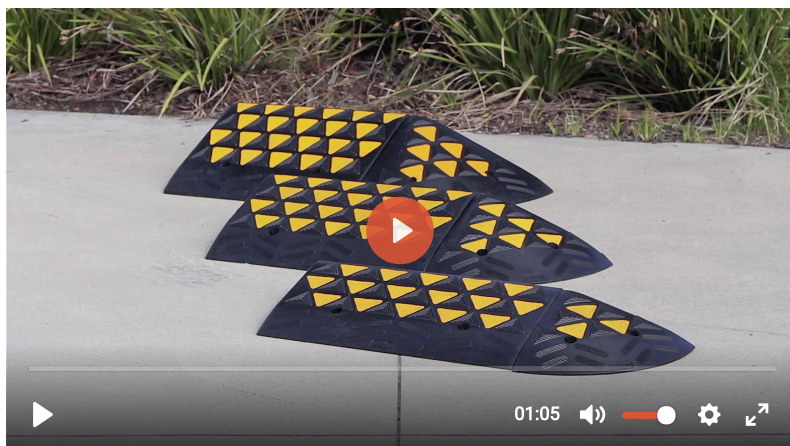

### Product Features:

- Hi-vis and anti-slip inserts.
- Three sizes available.
- Mounting holes and cable access moulded-in.
- Heavy duty recycled rubber construction.

### Highly visible moulded rubber kerb ramp

Kerb Ramps, also known as curb ramps, allow vehicle, trailer and trolley access over roadside kerbs or changes in height. These hi-vis ramps feature yellow anti-slip inserts which improve both visibility and traction. Available in three sizes to suit different height kerbs in both body modules and end caps.

All models have bolt holes for fixing in place and cable access channels moulded into the underside.
