

ArcSafe® Elvex Arc Shield Faceshield

Arc Rating: ATPV – 14cal/cm; PPE2

The ArcSafe® Elvex Arc Shield allows a greater range of head movement and field of vision when compared to competitive models. New lightweight, higher VLT (55%) design with a Low Profile Chin Guard.

- New improved chin guard provides extended protection under the chin while allowing a greater range of head movement. Chin guard stays out of sight when in the lowered position.
- When used with the Elvex VB-60 dielectric cap-attached visor bracket, it tilts up and out of sight in a balanced overhead position when not in use for greater worker assistance, comfort and mobility.
- Polycarbonate shield absorbs 99.9% of harmful UV A,B and C, 180-380nm
- Light green shield tint with 55% VLT (visible light transmission)
- The face shield is anti-scratch and anti-fog coated on both sides of the shield for longer service life and clear vision in temperature extremes.
