

SpillSmart General Purpose Rolls have been designed to rapidly absorb hydrocarbon and water based spills including Oil, Fuel, Coolant, Degreasers, Brake Fluid and Paints. They are also effective for the cleaning up of body fluids, sewerage, milk and all non-aggressive liquids. Rolls are a convenient alternative to pads, especially in scenarios where greater coverage is required.

On Heavy Weight Rolls, perforations ensure wastage is reduced by selecting exactly the amount required for the job. Absorb spills, drips and splashes in and around machinery, tool and tank wipe downs or for a final clean after taking up a spill with loose particulate absorbents. These rolls will cover most land based situations.

Our extended sorbent Roll Range offers greater choice with 3 options available – Heavy Weight, Light Weight and a half width alternative.

ES-PPGP-R44	GP Poly Roll Dimpled & Perforated - 96cm x 44m - Heavy Weight
ES-PPGP-RL	GP Poly Roll - 96cm x 44m - Light Weight
ES-PPGP-RH	GP Poly Half Roll Dimpled & Perforated - 48cm x 44m - Heavy Weight

Designed for:

- Indoor & outdoor land based spills
- Containing and absorbing fluids including Oil, Petroleum, Ethanol, Kerosene, Brake Fluid, Mineral Spirits, Turpentine, Water Based fluids and all non-aggressive liquids
- Absorbing leaks, drips and spills - during machinery maintenance, when dispensing liquids, under broken seals and leaking pipes, in storage area's and work area's where accidental spills may occur
- Automotive industry
- Warehousing and storage area's containing hydrocarbon and non-aggressive liquids
- Site maintenance
- Manufacturing industries

Features:

- Compatible with Oil & Hydrocarbons, water based fluids and non-aggressive liquids
- Manufactured with a poly spun bonded outer layer containing a highly absorbent organic cellulose filling
- Colour coded 'Grey' – General Purpose for easy identification
- Fast wicking action
